Skills

Programming Languages: C, Python, Java (Basics)

Database: MySQL

Tools: MS Word, Excel, Powerpoint

Web Technologies: HTML, CSS & JS(Basics), React (Basics)

Education

**JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD,
UNIVERSITY COLLEGE OF ENGINEERING JAGTIAL**

2022 - 2026

B. Tech in Computer Science and Engineering|**CGPA:8.8**

SRI VENKATESHWARA JUNIOR COLLEGE VAVILALAPALLY

2020-2022

Intermediate|**Percentage:98.3%**

TRINITY MODEL SECONDARY SCHOOL PEDDAPALLY

2019-2020

Class X(SSC)|**GPA:10**

Project Work

- **AI based Adaptive Assessment System (April,2025):** Developed a system which classifies entire class into two categories based on their marks and generates two personalized set of questions, using multiple ai models like Gemini and Groq AI, these personalized questions serve as a preparation guide for the students and also encourages students in their learning journey.
- **E-Commerce Website-Online Car Store (November,2024):** Developed an e-commerce website using MERN Stack where user can buy new cars of different brands and used cars.
- **Plant Disease Detection Using Machine Learning (June 2024):** Created a Plant Disease Detection System using machine learning, leveraging CNN techniques to detect the disease of a plant at early stages, integrated the system with a user-friendly interface ,allowing for seamless real-time detection.

Experience

- Worked as a Full Stack Intern at Eduwedo.

Awards and Certificates

- Full Stack Web Development Training from Eduwedo (Internship)
- Machine Learning from Biswal Info Tech Solutions (Technical Based Internship Program)
- Machine Learning with Python (one -week workshop)

Soft Skills

Team Collaboration, Effective communication, Problem-solving
